STATEMENT

I'm a highly-motivated designer and developer pursuing a position on a world-class creative team.

I am currently employed as Front End Developer and Web Designer for Dallas based digital creative agency, Deep Space Robots. In addition, I have two years experience working with a startup where I act as the in-house graphic designer and web developer.

I have a well rounded skill set and wear many hats in my projects. I transition from design to development with ease and make a strong member of any team.

EXPERIENCE

Mar 2012- **DEEP SPACE ROBOTS**
Present **FRONT END DEVELOPER / WEB DESIGNER**

Working on Rails based projects bulding and implementing pages / interfaces / minisites.

Mar 2012- **DROPCLOCK ENT.**
Present **CREATIVE LEAD**

Working on digital/print promotional campaigns for our roster artists and shows. Web sites, press kits, flyers, and cover art.

Jan 2012- **SLIGHTLYTYLER**
Present **DESIGNER / DEVELOPER**

Free lance work for many Dallas based individuals and organizations. I'm involved with local music and try to support up-and-coming Dallas artists. Web sites, Tumblr themes, flyers, and social media strategy.

Nov 2007- **DENTAL PLUS LABS**
Jul 2008 **WEB DESIGN / DIGITAL MEDIA**

Migrated static site to WordPress and created pages/templates for the new online catalogue. Revamped digital presence with new product images, staff photos, and email signatures.
